

# SCRAM ALCOHOL MONITORING SYSTEM

**SCRAM**<sup>™</sup>  
CONTINUOUS ALCOHOL  
MONITORING

Our flagship technology. The **SCRAM Continuous Alcohol Monitoring**<sup>™</sup> system is the world's most widely used and trusted 24/7 transdermal alcohol testing system. For high-risk, hardcore DUI and alcohol offenders.

## SCRAM Continuous Alcohol Monitoring<sup>™</sup>

Continuous Alcohol Monitoring (CAM), or combined CAM + House Arrest, at the flip of a switch. It's 24/7 monitoring for your higher-risk/higher-need alcohol clients.

*I really believe that if judges and probation departments knew about this technology and understood how successful it is, it would be on the ankle of every alcohol-dependent offender in the criminal justice system."*

— C. West Huddleston  
CLO, National Association of Drug Court Professionals

### SCRAM Remote Breath<sup>™</sup>

The first and only handheld, wireless, portable breath alcohol device with automated facial recognition and GPS with every single test. For clients who have normal less intensive testing and monitoring.

### SCRAM Systems GPS Solutions

The only provider with both CDMA (Verizon/Sprint) and GSM (AT&T) network options for your GPS program. SCRAM One-Step GPS<sup>™</sup> (CDMA) is from the industry-leading makers of Garmin GPS technologies. And SCRAM Dual-Function GPS<sup>™</sup> (GSM) delivers both GPS and house arrest monitoring options in a single unit, allowing for dynamic changes to supervision levels without switching equipment.

### SCRAM House Arrest<sup>™</sup>

Stand-alone house arrest monitoring built to work with today's home communications systems. Operates over home internet routers, stand-alone or digital phone lines, DSL, Vonage<sup>®</sup>, or on a cellular SCRAM-provided wireless system.

### SCRAM Systems Program Management Center<sup>™</sup>

The SCRAMNET<sup>™</sup> secure web application is the core of the Program Management Center (PMC), which brings together everything from monitoring of our entire product line to our best in industry court support program, 24/7 customer support, mobile applications, offender compliance analysis, and beyond.

## SCRAM Systems: **OPTIONS** in Alcohol Monitoring

### Lower Level Alcohol Misuse

- 1st time DUI
- Public order offenses
- Low BAC at time of arrest
- Earns reduced monitoring through program compliance

### Higher Level Alcohol Dependence and Addiction

- Repeat Hardcore Drink Drivers
- Domestic Violence
- High BAC at time of arrest
- Requires more intensive monitoring after a violation
